

PONPE 408F

Description

New Air intelligent controller can monitor real-time indoor temperature, CO2 concentration. Controller output signal can directly control the startup and speed of fan. It can be widely used in PONPE 408F residential, commercial and industrial applications, and can effectively improve air quality, create a healthy, comfortable, energy-efficient living and working environment.

Specifications

Dimension	86×86×40mm
Fixing hole distance	60mm(standard)
Wiring terminal	Max 2.5 mm ² wire
Rated voltage	AC220V 50Hz
Standby Power	≤0.5W
Control power	≤200W
Output interface	Three-speed fan
Temperature display range	0°C-50°C
CO2 display range	350ppm-3000ppm
Warm-up time	1 minute
Response time	≤10 seconds
Recovery time	≤30 seconds
Operating temperature	-10°C - +50°C
Operating humidity	5%RH-90%RH
Storage temperature	-10°C - +60°C
Storage humidity	≤60%RH
Life	≥10 years
