

# SOUND LEVEL METER

## เครื่องวัดเสียง

**MODEL : AMF004**

### FEATURES

- Wide measurement range: 30~130dB
- Accuracy up to 1.5dB
- This unit was designed according to following standards:
  - A. International electrician committee standard: IEC PUB 651 TYPE2
  - B. US national standard: ANSI S1.4 TYPE2
- 100% Brand New
- With modern, compact, portable design.
- Easy to use
- Frequency weighting characteristic: A
- Equipped with sponge ball to filter-out unwanted signals.
- Max reading hold
- Auto power off
- Auto backlight display
- Low battery indication
- Powered by 9V Battery (included)
- Approved by CE/ROHS/FCC standard

### SPECIFICATION

Measuring range	30dBA~130dBA
Accuracy	±1.5 dB
Frequency range	31.5Hz~8.5KHz
Frequency weighting	A
Digital Display	4digits
Resolution	0.1dB
Sample rate	2 times/second
Microphone	1/2 inch electret condenser microphone
Power supply	9V Battery
Operating condition	0~40 10~80%RH
Storage condition	-10~60 10~70%RH
Weight	185g (including battery)
Dimension	57*26*149mm
