Colorimeter

เครื่องวัดสี

MODEL : AMT500

TLEAD

Features :

- Easy Operation make you use it easily
- Widely applied to quality control of plastic and printing industries'
- Display directly color difference by △E*ab、CIE_L*a*b、△L*a*b、CIE_L*c*h
- Standard deviation within △E*ab0.2 (Test condition: choose average values by 12 pcs white tabula)
- Measure any color of smooth surface
- It can be connected with computer to do the inspection by soft ware with USB expansion interface.

Specifications :

- Test accuracy: Within 0.2△E*ab Display: △E*ab; CIE_Lab; △L; △a; △b; CIE_Lch
- Test range: L:0~100; a: -128~127; b: -128~127Test time: About 3 seconds
- Test aperture: Φ8mm
- Automatic shutdown after 5 minutes waiting
- Light source: C light source
- Sensor Correct: silicon photodiode (seed array)
- Power: DC/5V (1.5A), two 1.5V (AAA) batteries
- Operating environment: 0℃～+40℃; RH: less than 85%
- Size: 170×50×48.8mm
- Weight: 204g
