

5 In1 Multifunction Gauge Distance Meter, Wood Stud / Metal / Voltage Detector, Laser Marker DMT005

Features:

- 5 in 1 Multifunction Gauge: Distance Meter, Wood Stud / Metal / Voltage Detector, Laser Marker
- 2 inch LCD (50.8 mm) Display with Backlight
- Wide Distance Measuring Range from 0.6 ~ 16 m (2 ~ 53 inch)
- Switchable between measuring units (m, m2, m3 & inch, square feet and cubic feet)
- Temperature display switchable between °C and °F
- Built-in Memory for Area and Volume Calculation
- Bubble Level to assist your work to new level
- Automatically Calibrated when the Gauge turned on
- Alarming of AC live wires in any stud mode
- 2 Built-in pins for tool fixation on the wall while Laser Marking

Specification	
Measuring Range:	0.6 ~ 16 m (2 ~ 53 inch)
Calculation Range:	Length: 9999.99 m (9999'11")
	Area: 99999.9 m ² (99999.9 square feet)
	Volume: 999999 m ³ (999999 cubic feet)
Resolution:	0.01 m
Temperature Range:	0 ~ 40 °C (32 ~ 104 °F)
Auto Power Off:	30 seconds without operation
Backlight:	Auto Turn Off after 15 seconds without operation
Stud Detector	
Object of Detection:	Wood Joists, AC Live Wire and Metals
Wood Joists:	19.05 mm (0.75 inches) Thickness of wall
AC Live Wire:	50.8 mm (2 inches) deep away from the wall
Metals:	38.1 mm (1.5 inches) deep away from the wall
Laser Marker	
Laser Width:	<5mm
Laser Power:	<1mW
Wavelength:	630 ~ 660 nm
Laser Class:	Class II
General Specifications	
Recommended Use:	Indoor or indirect sunlight
Length of Laser Line:	2 m (6.56 feet)
Power:	1 x 9 V Battery (not included)
Power Consumption:	<50 mA
Temperature Range:	5 ~ 40 °C (41 ~ 104 °F)
Size:	170 (L) x 85 (W) x 45 (D) mm (6.69 x 3.35 x 1.77 inch) about
Weight:	235g (8.29 oz) (Battery excluded) about
