

DIGITAL THERMOMETER

เครื่องวัดอุณหภูมิ

MODEL : TP101-30

Brief Description

This digital food thermometer is a high quality measuring tools for home and industrial use. The sensor probe is long, sensitive and has a plastic tube for safety purposes. The meter is also featured with low power indication and power save mode.

The temperature is selectable between °C and °F. This digital thermometer is a must for Kitchen, BBQ, Laboratories and other Industrial use.

Features

- Wide range of applications
- Long stainless steel sensor probe
- Wide Temperature Range between -50 °C and 300 °C (58 °F to 572 °F)
- Switchable between °C and °F
- Automatic power off after 10 minutes without operation
- Low battery indication
- Sensor fault display
- Memory of the previous measuring
- Plastic tube casing included for storage and safety purpose

Specifications

- Switchable between °C and °F
- Temperature Range: -50 °C to 300 °C (58 °F to 572 °F)
- Resolution: 0.1 °C (°F)
- Accuracy: (-20 °C ~ 80 °C) ± 1°C
- Length of probe: 30 cm
- Power supply: 1 x 1.5 V LR 44 Button Cell Battery (Included)

Packing

- 1 x Digital Food Thermometer
- 1 x Instruction Manual
- 1 x Battery installed
- 1 x Plastic Tube
